

3.3 Image Metadata#

Entry	Description
For each group of images	
Project name	Same as Project Name in section 3.1.1.
Number of images	Total number of images submitted for archival.
File name for planimetric sketch or map	File name and extension. Should include outline of subject and surrounding objects (if any), indicated location and orientation of each image (using a "V" symbol), and other special comments and/or observations.
Camera calibration file	Reference to the camera calibration specifics in section 3.2.1.
Additional notes	Any additional notes the surveyor feels applicable. Could list images containing control and/or scaling references.
For each image	
Image file name	File name and extension.
Textural description of location and orientation	Should describe general location (e.g. north side) and camera to subject orientation (e.g. view to south).
Format conversions (if any)	List of format conversions performed on the digital images and the software used.
