

## Appendix 4. Term Lists#

### A4.1 Land Use#

This is a list of terms that can be used in the field *Land use*.

- Allotment
- Arable
- Arable and Pasture
- Arable and Woodland
- Archaeological Excavation
- Built over
- Churchyard
- Coastland - above High Water
- Coastland - Inter Tidal
- Garden
- Grassland - Pasture
- Grassland - Undifferentiated
- Heathland
- Lawn
- Mixed Rural
- Mixed Urban
- Moorland
- Orchard
- Park
- Playing Field
- Road
- Waste Ground
- Woodland

### A4.2 Solid Geology#

This is a list of terms that can be used in the field *Solid Geology*. It was compiled from the EH GSdb and is not a complete list of all the classifications of the BGS.

- Amphill and Kimmeridge Clay
- Ashgill
- Ashgill and Caradoc undifferentiated
- Barton, Bracklesham & Bagshot Beds
- Basal Conglomerate
- Basalt, Dolerite, Camptonite and Allied Types
- Bovey Formation, St Agnes Sands, etc.
- Budleigh Salterton Pebble Beds
- Cambrian
- Caradoc
- Carboniferous/Devonian Transition Group
- Chalk (including Red Chalk)
- Corallian
- Coralline Beds
- Cornbrash
- Devonian Andesitic and Basaltic Lavas and Tuffs, undiff.

- Devonian undifferentiated
- Gabbro and allied types
- Gneiss, Mica Schist
- Granite, Syenite, Granophyre & allied types
- Great Oolite
- Hamstead Beds and Bembridge Marls
- Hastings Beds
- Inferior Oolite
- Kimmeridge Clay
- Lenham Beds
- Llandeilo
- Llandovery
- Llanvirn & Arenig
- London Clay
- Lower Cambrian
- Lower Cretaceous undifferentiated
- Lower Devonian
- Lower Greensand
- Lower Lias
- Lower Old Red Sandstone (including Downtonian)
- Lower Westphalian (A+B)
- Ludlow
- Magnesian Limestone
- Middle Cambrian
- Middle Devonian (England)
- Middle Lias
- Middle/upper Devonian undifferentiated
- Namurian ("Millstone Grit series")
- Norwich Crag, Red Crag & Chillesford Clay
- Oldhaven, Blackheath, Woolwich & Reading & Thanet Beds
- Oolite undifferentiated
- Oxford Clay and Kellaways Beds
- Permian & Triassic Sandstones undifferentiated
- Permian Basal Breccias, Sandstones and Mudstones
- Permian Mudstones
- Portland Beds
- Precambrian
- Purbeck Beds
- Rhyolite, Trachyte, Felsite, Elvans, and allied types
- St Erth Beds (Cornwall)
- Torridonian Sandstone and Grit
- Tournaisian & Viséan ("Carboniferous Limestone series")
- Triassic Mudstones
- Ultrabasic rock
- Undifferentiated Gneiss of the Lewisian complex
- Upper Cambrian, including Tremadoc
- Upper Carboniferous undifferentiated
- Upper Devonian & Upper Old Red Sandstone
- Upper Greensand and Gault
- Upper Lias
- Upper Westphalian (C+D)
- Weald Clay
- Wenlock
- Westphalian

- Westphalian & Stephanian, undivided of "Barren Red"

### **A4.3 Drift Geology#**

This is a list of terms that can be used for the field *Drift Geology*.

- Alluvium
- Blown Sand
- Boulder Clay and Morainic Drift
- Brickearth, Mainly Loess
- Clay with Flints
- Colluvium
- Crag
- Glacial Sand and Gravel
- Lacustrine Clays, Silts and Sands
- Peat
- Raised Beach and Marine Deposits
- River Terrace Deposits
- Sand and Gravel of Uncertain Age or Origin
