

### 3.3 Image Metadata#

| Entry  | Description   |
|--|---|
| <b>For each group of images</b>                  |   |
| Project name                                     | Same as Project Name in section 3.1.1.  |
| Number of images                                 | Total number of images submitted for archival.  |
| File name for planimetric sketch or map          | File name and extension. Should include outline of subject and surrounding objects (if any), indicated location and orientation of each image (using a "V" symbol), and other special comments and/or observations. |
| Camera calibration file                          | Reference to the camera calibration specifics in section 3.2.1.   |
| Additional notes                                 | Any additional notes the surveyor feels applicable. Could list images containing control and/or scaling references.   |
| <b>For each image</b>                            |   |
| Image file name                                  | File name and extension.  |
| Textural description of location and orientation | Should describe general location (e.g. north side) and camera to subject orientation (e.g. view to south).  |
| Format conversions (if any)                      | List of format conversions performed on the digital images and the software used.   |
